## KIDS HATS

How do you feel when you see a baby or kid wearing a hat?

It is very cute and lovely, isn't it!

Fashion is not just belongs to adult world.

Of course, for babies, the fabric has to be environmentally and soft, like cotton!

And to attract kids' eyes, it's usually with different patterns all over,

or makes something very funny and vivid, like animal's wing, tail, ear and so on!

A nice gift for your lovely baby!
