Aung Crown®
MADE. WITH HEART

ABOUT US

When Aung Crown was founded in 1998, we couldn't have imagined it would evolve into the 300+ company of passionate, talented, and dedicated individuals it is today. Our humble beginnings started with customizable hats. Then, brick-by-brick, or hat-by-hat we should say, we methodically and drastically built upon our offerings and capabilities in the years to come. The thing that made this possible, and worth it? The heart we put into everything we do.

From the way we approach our craft, treat our customers, and care for our employees, to the way we prioritize giving back to communities in need, we believe that leading with our hearts makes all the difference—not just in our business and the products we create, but in the world and the love we spread.

Now, more than 20 years after we first opened our doors, we're still leading with our hearts and creating unique apparel items of all shapes, sizes, colors, and materials with endless customization capabilities. From hats to t-shirts, tank tops, hoodies, athletic wear, pants, shorts, and socks, whatever you have in mind for your branded apparel item of choice, we'll get it made. With heart, and with love. We hope you spread it around.

OUR FACTORY

BASEBALL HATS

This baseball cap is made with elastic cotton because cotton is a fabric that is skin-friendly and comfortable to wear, also with strong moisture absorption.

The back closure of the hat is an elastic band that is suitable for most people.

The back closure also can be a Velcro strap, a metal buckle, or a rubber buckle to adjust the size for different head circumferences. Usually, most interlinings on the front panel are non-deformable Oxford cloth and the embroidery is very delicate.

SNAPBACKS

The snapback hat series is a type of hat made of high-quality cotton, with a wide brim, available in camouflage, white, beige, and other colors. It's suitable for people with round or square faces. In order to make the face look less plump, you can choose a hat with a high-profile crown and an asymmetric brim, which can increase the length of the face and look more three-dimensional.

5 PANEL HATS

A 5-piece hat, as the name suggests, is a hat composed of 5 pieces of panels, with one piece on the left and right sides respectively, three pieces in the middle, and a brim on the front. Therefore, compared with a 6-piece hat, this type of hat is more suitable for the shape of the face. What's more, when wearing it, the brim of this hat can be bent a little bit, then your face will be better shaped with this slightly curved brim.

TRUCKER HATS

A truck cap, also known as a truck cap or a trucker hat, is one type of baseball cap.

Due to the fact that it was a promotional item for feed or companies of agricultural supplies to promote their products to farmers and truck drivers, a truck cap is regarded as a "gimme cap" or a "fees cap" sometimes. In the hip-hop culture, a trucker hat has been one of the most important elements for dressing, and also developed into a favorite decoration for young people in the streets and alleys.

DAD HATS

What is a dad hat? A dad hat is a simple type of baseball cap.

Our dad hat is made from plain canvas or cotton twill, with a slightly curved brim, which may be a little loose for some wearers. However, no need to worry about the size because there is an adjustable closure at the back.

Matching a crewneck sweatshirt can create a very casual and chic attire.

BUCKET HATS

This bucket hat is a soft and versatile hat.

Can make from heavy cotton fabrics such as denim, canvas, or heavy wool, like Harris wool.

The brim of the hat is narrow and small, and the crown of the hat is deep.

The unisex design is suitable for both women and men.

This bucket hat does not have a long protruding front edge like a baseball cap, but there is only a slightly down-dropping sunshade edge on the bucket hat.

PLUSH MATERIAL

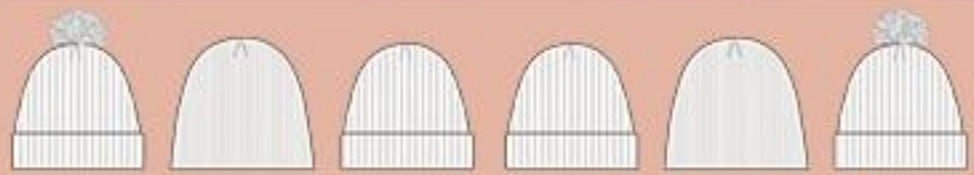

BEANIES

A knitted hat is a kind of beautiful hat,
made with needles and threads.

A knitted hat is very comfortable to wear,
and it's suitable for people of all ages.

Because of its feature - knitted,
it's very suitable for cold weather. Due to its overall shape
and the thickness and tightness of the knitting, it's both gentle and trendy.
